INDUSTRIAL ELEMENTS AND ACCESSORIES

Fan Forced Through The Wall Module

Ideal for both temporary and permanent heating applications, Hotco's through the wall modules are the perfect way to provide consistent fan forced heat into a sealed environment. Thermostatically controlled these heaters are easy to install and are fitted with overtemp protection for your piece of mind.

Part Number	Description
GM25007	Fan heater thru wall module 2.2kW 0-40oC
GM25008	Fan heater thru wall module 2.2kW 30-110oC
GM25009	Fan heater thru wall module 2.2kW 60-200oC
GM25010	Fan heater thru wall module 2.2kW 50-300oC

Helios Blower Units

Hotcos heaters are designed to provide high volume hot air for comfort heating & industrial process applications. These units are easy to install and come with manual reset safety thermostats, solid state variable speed controls, 3 phase main isolating switches and a contactor factory installed. A dual purpose mounting frame is available enabling either wall or ceiling mount.

Notes: For a reasonable cartridge life the cartridge must be inserted into a tolerance reamed hole

For a better heat transfer and easier cartridge removal, prior to insertion coat the cartridge with our anti-oxidation and heat transfer fluid. For extended life use a PID controller. Contact us for details

All cartridge heaters come with 300mm leads. For other sizes / wattages contact us for information
